Overall Length:

25.750 inches

Overall Height:

16.500 inches

Overall Width:

25.750 inches

Power Source:

External

Voltage In Volts And Current Type:

115.0 ac

Special Features:

Single phase; multiple item w/carring case; weighs 84 lbs; 230v ac ; 60 hz ; major components: 140a oscilloscope, 10 ea gr874 series adapters cage 24655, 1 ea 874-w50 50-ohm coax terminatoion, 1250-0076 adapter, power cord bb-365, transit case, adapter case; mfg name; metallic time domain reflectometer test kit

Frequency In Hertz:

50.0

Functional Description:

Time domain reflectometry

Reference Data And Literature:

T.O. 33a1-13-316-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A527c0
