Overall Length:

20.000 inches

Overall Height:

16.000 inches

Overall Width:

16.500 inches

Component Quantity:

1

Locking Device:

Not included

Component Controlling Agency:

Jetds

Component Name:

Indicator, precise angle

Component Identifying Number:

Id-1450/asm type no.

Handle Quantity:

2

Handle Location:

Each side

Special Features:

Incl molded internal cushion

Material:

Aluminum

Surface Treatment:

Enamel

Fsc Application Data:

Provides means of holding and transporting indicator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T358-a
