Overall Length:

8.500 inches

Overall Height:

7.000 inches

Overall Width:

11.500 inches

Component Quantity:

3

Locking Device:

Not included

Component Controlling Agency:

Jetds

Component Name:

Test set, radio frequency power; coupler-detectors

Component Identifying Number:

Ts-1285/urm-120 type no. And cu-753/urm-120, cu-754/urm-129 or cu-755/urm-020 type no.

Handle Quantity:

1

Handle Location:

Cover

Material:

Aluminum

Material:

Aluminum

Surface Treatment:

Enamel

Surface Treatment:

Enamel

Fsc Application Data:

Case, meter, test, except specially designed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T358-a
