| Circuit Current For Which Designed:                   |
|---|
| Dc  |
| Reliability Indicator:                                |
| Not established                                       |
| Overall Length:                                       |
| 1.900 inches  |
| Overall Diameter:                                     |
| 2.695 inches  |
| Mounting Bolt Circle Diameter:                        |
| 2.440 inches  |
| Installation Design:                                  |
| Panel   |
| Mounting Arrangement Style:                           |
| Three hole/stud bolt circle                           |
| Sensitivity Rating:                                   |
| 1.0 milliamperes                                      |
| Dial Scale Marking Color:                             |
| Black single indicator single range                   |
| Accuracy In Percent:                                  |
| -2.0/+2.0 at full scale single indicator single range |
| Meter Depth Behind Mounting Flange:                   |
| 1.600 inches  |
| Meter Body Diameter Behind Mounting Flange:           |
| 2.210 inches  |
| Background Color:                                     |
| White single indicator single range                   |
| Mounting Facility Type And Quantity:                  |
| 3 flange  |
| Circuit Attachment Method And Quantity:               |
| 2 solder lug  |
| Special Features:                                     |
| Zero center, needle rest                              |
| Special Markings:                                     |
| Red, yellow, green, yellow and red                    |
| Style Designator:                                     |
| C1 round flush mtg                                    |
| Fsc Application Data:                                 |
| Test set, elect. Equip.                               |
| Shelf Life:   |
| N/a   |
| Unit Of Measure:                                      |
