Overall Length:

28.000 inches

Overall Height:

5.375 inches

Overall Width:

5.375 inches

Impedance Rating Per Channel:

50.000 ohms output channel

External Dc Operating Voltage In Volts:

145.0 single voltage

Special Features:

Fsc application data: generator, thermal noise except specially designed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
