Overall Length:

24.880 inches

Overall Height:

17.880 inches

Overall Width:

22.000 inches

Ac Voltage Rating:

120.0 volts

Dc Voltage Rating:

0.20 volts

Frequency Rating:

60.0 hertz

End Application:

An/fps-85

Closure:

Not included

Test Type:

Amplification

Indicator:

Not included

Phase:

Single

Special Features:

Evaluate/align alpha-beta mixers for receiver

Functional Description:

Used to correctly and accurately align and evaluate the performance of the alpha/beta boards of the receiver modules for the an/fps-85 radar set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-g
