Overall Length:
6.500 inches
Overall Height:
4.125 inches
Overall Width:
3.281 inches
Dial Scale Marking Color:
Black single indicator all ranges
Movement Type:
Moving coil, permanent magnet and moving iron vane
Background Color:
White single indicator all ranges
Power Source:
Internal
Scale Selection Method:
Switch
Features Provided:
Portable
Portable
Portable Movement Suspension Method:
Portable Movement Suspension Method: Jewel pivot base
Portable Movement Suspension Method: Jewel pivot base Style Designator:
Portable Movement Suspension Method: Jewel pivot base Style Designator: Rectangular or square
Portable Movement Suspension Method: Jewel pivot base Style Designator: Rectangular or square Shelf Life:
Portable Movement Suspension Method: Jewel pivot base Style Designator: Rectangular or square Shelf Life: N/a
Portable Movement Suspension Method: Jewel pivot base Style Designator: Rectangular or square Shelf Life: N/a
Portable Movement Suspension Method: Jewel pivot base Style Designator: Rectangular or square Shelf Life: N/a Unit Of Measure:
Portable Movement Suspension Method: Jewel pivot base Style Designator: Rectangular or square Shelf Life: N/a Unit Of Measure: Demilitarization:
Portable Movement Suspension Method: Jewel pivot base Style Designator: Rectangular or square Shelf Life: N/a Unit Of Measure: Demilitarization: No
Portable Movement Suspension Method: Jewel pivot base Style Designator: Rectangular or square Shelf Life: N/a Unit Of Measure: Demilitarization: No Fiig:
