Ac Voltage Rating:

Between 115.0 volts and 230.0 volts

Frequency Rating:

60.0 hertz

Electrical Power Source Relationship:

Operating

Special Features:

10 in. Chart, linear motor, includes 1 millivolt span, input filter, soft zero right, 1 in./min chart speed, detector switch and rear input terminal strip, electronic chart integrator

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T198-a
