**Installation Design:**

Cabinet

**Power Source:**

External

**Scale Selection Method:**

Switch

**Features Provided:**

Adjustable index pointer and electrical overload protection

**Operating Voltage Rating In Volts:**

Between 208.0 ac and 480.0 ac

**Phase:**

Three

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A310a0
