Overall Length:

10.200 inches

Overall Height:

6.100 inches

Overall Width:

7.800 inches

Frequency Response Range:

+0.000/+20.000 megahertz

Accuracy In Percent:

-1.0/+1.0 at full scale single indicator all ranges

Movement Type:

Moving coil, permanent magnet

Power Source:

Internal

Scale Selection Method:

Switch

Features Provided:

Portable

Movement Suspension Method:

Taut band

Special Features:

Internal battery charger

Style Designator:

D1 rectangular or square

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
