Dc	
Dielectric Withsta	nding Voltage In Volts:
1500.0	
Overall Length:	
1.625 inches	
Center To Center	Distance Between Mounting Facilities Parallel To Length:
Between 1.306 inch	nes and 1.318 inches
Center To Center	Distance Between Mounting Facilities Parallel To Width:
Between 1.306 inch	nes and 1.318 inches
Overall Height:	
Between 1.734 inch	nes and 1.766 inches
Overall Width:	
Between 1.734 inch	nes and 1.766 inches
Mounting Hole Dia	imeter:
Between 0.120 inch	nes and 0.130 inches
Installation Desig	1:
Panel	
Mounting Arrange	ment Style:
Four hole/stud recta	angular/square
Dial Scale Marking	J Color:
Black single indicat	or single range
Accuracy In Perce	nt:
-3.0/+3.0 at full sca	le single indicator single range
Meter Depth Behir	nd Mounting Flange:
1.000 inches	
Meter Body Diame	ter Behind Mounting Flange:
1.510 inches	
Movement Type:	
Moving coil, perma	nent magnet
Background Color	:
White single indicat	or single range
Mounting Facility	Type And Quantity:
4 unthreaded hole	
Features Provided	:
Magnetic shield and	zero adjuster
Circuit Attachmen	t Method And Quantity:
2 solder lug	
Special Markings:	
Black line on left sid	de of scale marked 0, white band on left side marked lo logic, white band in center marked hi, green band on right side
marked dc power	
Style Designator:	
Rectangular flush n	ata
