Circuit Current For Which Designed:

Ac and dc

Dielectric Withstanding Voltage In Volts:

6900.0

Furnished Items And Quantity:

Additional scale ranges 10

Dial Scale Marking Color:

Black single indicator single range

Movement Type:

Moving iron vane

Background Color:

White single indicator single range

Features Provided:

Zero adjuster

Movement Suspension Method:

Jewel pivot base

Material:

Plastic phenol-formaldehyde

Style Designator:

Hook-on

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
