Overall Length:

18.100 inches

Overall Height:

7.200 inches

Overall Width:

12.900 inches

Current Type:

Ac

Frequency Rating:

Between 48.0 hertz and 440.0 hertz

Accessory Components And Quantity:

Light filter 2, multimeter 1, probe 2

Voltage Rating:

Between 110.0 volts and 240.0 volts

Beam Quantity:

2

Screen Size:

8 by 10 centimeters

Sweep Circuits:

Included

Sweep Circuit Type:

Horizontal and vertical

Trigger Sweep Voltage Amplitude Rating:

0.3 volts

Trigger Sweep Polarity Switch:

Included

Amplifier Deflection Sensitivity Provision:

Provided

Frequency Response Rating:

Provided

Calibrated Screen Scale:

Included

Camera Recording Device Accommodation:

Not provided

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T320-g
