**Overall Length:**

12.000 inches

**Overall Height:**

5.000 inches

**Overall Width:**

2.600 inches

**Unit Type:**

Pulse generator

**Functional Classification:**

Bb-1.5

**Functional Description:**

Has floating output; independently adjustable rise and fall times; external control of period or period and duration

**Entry Date:**

80-09-01

**Reference Data And Literature:**

Tektronix inc. 070-1583-00

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T228-b
