Overall Length:

12.000 inches

Overall Height:

5.000 inches

Overall Width:

2.600 inches

Unit Type:

Pulse generator

Functional Classification:

Bb-1.5

Functional Description:

Has floating output; independently adjustable rise and fall times; external control of period or period and duration

Entry Date:

80-09-01

Reference Data And Literature:

Tektronix inc. 070-1583-00

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-b
