Overall Length:

2.625 inches

Overall Height:

0.875 inches

Overall Width:

2.000 inches

End Application:

An/fsq-8 (v) receiving system

Supplementary Features:

Swr bridge; 2 type n female connectors; 8 to 18ghz frequency rance; 50 ohm input impedance; 35db directivity; apc7 test port connector; 6.5db insertion loss from input to test port

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-d
