Overall Length:

2.380 inches

Overall Width:

1.500 inches

End Application:

6760-01-003-9077 testbench set, infrared receiver

Attachment To Item Supported Method:

Holds item by means of three 0.193 in. Diameter mtg holes on a 1.125 in. Diameter mtg ctr

Supporting Object/surface Attachment Method:

One 7/16-20 unf-2a thd stud

Material:

Steel, corrosion resisting

Material:

Stainless steel

Surface Treatment:

Passivate

Special Test Features:

Apply microseal 200-1 per mil-I-8937

Surface Treatment:

Passivated

Fsc Application Data:

Elec, elect. Properties measuring and test instruments

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T08100
