Current Type:

Ac

Presentation Type:

Digital display

Display Digit Quantity:

7

Special Features:

960 mw power dissipation at 25 deg. C ambient, 240 ma total continuous forward current, 30 ma per segment or decimal, 60 v peak inverse voltage per segment or decimal, 0.6 in. 7 segment red display anode

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A532n0
