Overall Length:

20.000 inches

Overall Height:

6.800 inches

Overall Width:

15.000 inches

End Application:

Power module mainframe

Usage Design:

Power module mainframe

Component Type And Quantity:

2 cover and 10 transistor and 1 printed wiring board

Special Features:

Holds up to 5 plug-in modules, included is 1 handle, 1 tilt bale, and 1 fan

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A5110
