

View Online at <https://aerobasegroup.com/nsn/6625-01-039-7900>

Special Features:

Measurable rf pulse width range: .20 usec to cw on external trigger/internal noise; distortion less than 0.2 db p-p at m15 db; pulse averaging affects reading less than 0.2 pct of full scale in linear mode; calibration factor range: porm 1 db in .05 db steps; calibrator output: 2 levels of 10 mw porm 1.5 pct and 10 uw porm 2.5 pct; nomfreq 105 mhz; 3 fixed offsets: 20, 40 and 60 db for use with external attenuators or couplers

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
