Mounting Type:

Bench

Current Type:

Ac

Frequency Range Rating:

+0.010/+10000.000 kilohertz

Accessory Component Quantity:

2

End Application:

Test set, electronic

Accessory Controlling Agency:

Tektronic

Accessory Identifying Number:

T-501; pg506 part no.

Accessory Component Name:

Mainframe; calibration generator

Functional Description:

Direct readout of oscilloscope deflection error

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-j
