End Application:

Sturgeon class ssn (637) (963), ticonderoga class cg (47), support equipment, b-52 aircraft, landing craft air cushion (lcac), deep submergence systems programs (dssp), missile, air to air, sparrow (aim-7), los angeles class ssn (688), radar set, lightweight 3d (an/tps-59), arleigh burke class ddg.

Criticality Code Justification:

Feat

Product Name:

Lead test 25.0 dc maximum rated working voltage single conductor

Voltage Rating:

25.0 dc rated working voltage single conductor

Special Features:

Weapon system essential

Fsc Application Data:

Test set electronic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A077a0
