**Storage Temperature Range:**

-15.0/+85.0 degrees celsius

**General Description:**

Floating, guarded analog input; 10 or 15 vdc excitation supply; 40000 count ratiometric digitizer; display 7-bar neon glow numbers - ranges m39999 to p39999 1-count increments, m79998 to p79998 2-count increments, m199995 to p199995 5-count increments - overload indicator light; 117/234 vac, 50/60 hz, 12 w; operating temp range m10-50 degrees c; 5.375 in. W, 2.625 in. H, 9 in. D; manual span/zero controls; dtl/ttl compatible bcd outputs

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No
