**Overall Length:**

13.500 inches

**Overall Height:**

7.750 inches

**Overall Width:**

9.000 inches

**Ac Voltage Rating:**

115.0 volts

**Frequency Rating:**

60.0 hertz

**Electrical Power Source Relationship:**

Operating

**Installation Design:**

Portable

**Recording Method:**

Sensitized paper

**Channel Quantity:**

2

**Information Recorded:**

Scores used to analyze electronic warfare activity

**Special Features:**

Modified to a thermal per nsp 2601, non standard parts

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T198-a
