Overall Length:

13.500 inches

Overall Height:

7.750 inches

Overall Width:

9.000 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

60.0 hertz

Electrical Power Source Relationship:

Operating

Installation Design:

Portable

Recording Method:

Sensitized paper

Channel Quantity:

2

Information Recorded:

Scores used to analyze electronic warfare activity

Special Features:

Modified to a thermal per nsp 2601, non standard parts

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T198-a
