Overall Length:

17.000 inches

Overall Height:

7.750 inches

Overall Width:

18.750 inches

End Application:

White noise test set, marconi instruments, oa2090b

Impedance Rating Per Channel:

75.000 ohms output channel

Operating Ac Frequency In Hertz:

45.0 single voltage and 500.0 single voltage

External Ac Operating Voltage In Volts:

95.0 single voltage and 260.0 single voltage

Special Features:

Usage design: provides a noise signal which simulates traffic at a specified level of loading

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
