Special Features:

0.750 in. H; 3.000 in. Maximum dia; frequency range dc to 18 ghz; resistive loss 3 db ; load isolation 6 db ; characteristic impedance 50 ohms; power rating 0.5 watt average ; power rating 100 watts peak ; series n female connectors; operating temperature range @minus 55 to plus 125 degrees c

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A512n0
