Overall Length:

22.500 inches

Overall Height:

6.750 inches

Overall Width:

19.500 inches

Ac Voltage Rating:

115.0 volts

Frequency Rating:

400.0 hertz

End Application:

E-3a awacs aircraft age.

Test Item Connection Method:

Connector

Phase:

Three

Special Features:

Fixed phase

Functional Description:

Provides capability for functional test and fault isolation of power supplies

Material:

Aluminum case

Fsc Application Data:

Test set, power supply

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
