Overall Height:

11.650 inches

Overall Width:

19.500 inches

End Application:

E-3a a/e37t-25

Unpackaged Unit Weight:

39.500 pounds

Special Features:

3 phase is fixed (2 amps/line) and 1 phase is variable (10 amps/line)

Functional Description:

Provides test jacks, protective devices, supplementary loads, interconnecting wiring, switch functions and mechanical/electrical interface between power supply test set and power supply under test

Supplementary Features:

115vac, 400hz, single phase; 22.5in l; uut 388809-2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A17600
