Overall Length:

13.250 inches

Overall Height:

3.500 inches

Overall Width:

8.500 inches

Measurement Type:

Frequency and period average and ratio and time and time interval and totalizing

Frequency Range:

+0.000005/+50.000000 megahertz f1 input ratio and +0.000005/+20.000000 megahertz f2 input ratio

Accuracy Rating:

Porm 1 count porm trigger error of f2 over multiplier

Internal Calibration Feature:

Included

Display Type:

Numeric readout tube

Display Digit Quantity:

9

Display Units Indicator:

Not included

Display Positioned Decimal Point:

Provided

Display Storage Facility:

Included

Remote Control Provisions:

Not included

Solid State Feature:

Included

Special Features:

Opti-ranging

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T297-a
