**Overall Length:**

0.620 inches

**Overall Height:**

0.340 inches

**Overall Width:**

0.620 inches

**Basic Shape Style:**

Rectangular or square

**Installation Design:**

Module

**Circuit Construction Type:**

Solid state

**Connection Type And Location:**

Terminals located at bottom

**External Dc Operating Voltage In Volts:**

9 terminal pins

**Fsc Application Data:**

Circuit card assembly, navigational set

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A32200
