Overall Length:

0.620 inches

Overall Height:

0.340 inches

Overall Width:

0.620 inches

Basic Shape Style:

Rectangular or square

Installation Design:

Module

Circuit Construction Type:

Solid state

Connection Type And Location:

Terminals located at bottom

External Dc Operating Voltage In Volts:

9 terminal pins

Fsc Application Data:

Circuit card assembly, navigational set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
