Major Components:

3two commercial racks, work surface, shelf, power supplies, blower w/power converter, voltage regulator dummy load, set voltage regulator, test panels, storage drawers, wiring harness, interface adapters, connectors, clamps, convenience outlets

End Application:

60 channel frequency division multiplexer

Special Features:

Assigned name: test set, multiplexer set; racks are 19.0 in. W x 70.0 in. H; work surface is 19.0 in. W; shelf is for power supply, dummy load, blower; test panels are: single channel interface, power supply/test set/ancillary interface; outlets are 60.0 hz

Functional Description:

Provides the stimulus/measurement capability necessary for piece part maintenance of 24 modules

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fiig:

T228-a
