Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

28.0 volts

Major Components:

Includes 115v power cable, 28v power cable, power switch, brightness switch, 28v standby/main power switch

End Application:

Lgm-118a

Inclosure Feature:

Multiple item w/housing

Test Type For Which Designed:

Digital data modem

Special Features:

Assigned name: test set, modem, digital data

Reference Data And Literature:

T.O.12r2-2a-493

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T228-a
