**Overall Length:**

18.500 inches

**Overall Height:**

5.250 inches

**Overall Width:**

8.500 inches

**Current Type:**

Ac

**Frequency Rating:**

Between 48.0 hertz and 66.0 hertz

**Voltage Rating:**

Between 90.0 volts and 272.0 volts

**Generator Driven Feature:**

Included

**Special Features:**

Half-rack width, max power 32 w; solid state; sync generator; color bars; 5-step staircase; bar width 6.6 microseconds; white bar risetime 115 ns; digital circuitry; composit syn output amplitude is 4v p-to-p within 0.2v into 75 ohms; return loss 30 db; quartz crystal; incl 75 ohm thru-line termination, p/n 011-0103-02); 7-1/2 ft 3-wire power cord, p/n 161-0036-00; instruction manual, p/n 070-1008-00; rackmounting hardware

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T320-g
