**End Application:**

F-16 aircraft age.

**Usage Design:**

Fault/maintenance

**Mounting Configuration:**

Mounted type

**Product Name:**

Test set subassembly

**Special Features:**

Printed wiring board 1; microcircuit 20; support assembly 1; resistor 17; capacitor 19; switch 2; polarizing key 2; plug 1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A51110
