Overall Length:

23.250 inches

Overall Height:

20.880 inches

Overall Width:

21.060 inches

Ac Voltage Rating:

115.0 volts

Dc Voltage Rating:

28.0 volts

Frequency Rating:

400.0 hertz

End Application:

An/arm-101 and an/arm-182

Meter Quantity:

1

Test Item Mounting Accommodation:

Jacks and switch

Unpackaged Unit Weight:

60.000 pounds

Phase:

Three

Special Features:

Portable; combination case

Functional Description:

Provides simulated flight event and control inputs to test system and displays simulated flight results

Fsc Application Data:

Test set, radar

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T122-a
