Circuit Current For Which Designed:

Ac

Overall Length:

558.8 millimeters

Overall Height:

356.0 millimeters

Overall Width:

431.8 millimeters

Sensitivity Rating:

50.0 millivolts

Accuracy In Percent:

-0.5/+0.5 at full scale single indicator single range

Measurement Range:

+0.0/+100.0 percent deviation single indicator single range

Features Provided:

Portable

Special Features:

Includes an indicator which measures the zero position of a carrier level & the carrier level; internal calibration feature

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A310a0
