Overall Length:

9.875 inches

Overall Height:

3.250 inches

Overall Width:

4.500 inches

Frequency Range Rating:

+0.0/+4.2 gigahertz

End Application:

Rf power sensor for ground wave emergency network (gwen) an/urc-117

Sensing Element Type:

Thermistor

Battery Case:

Not provided

Special Features:

50.0 impedance; vswr 1.18 to 1, power range, with included fixed attenuator, 1.0 mw to 20.0 watts, type n male coaxial connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T134-a
