**Overall Length:**

9.875 inches

**Overall Height:**

3.250 inches

**Overall Width:**

4.500 inches

**Frequency Range Rating:**

+0.0/+4.2 gigahertz

**End Application:**

Rf power sensor for ground wave emergency network (gwen) an/urc-117

**Sensing Element Type:**

Thermistor

**Battery Case:**

Not provided

**Special Features:**

50.0 impedance; vswr 1.18 to 1, power range, with included fixed attenuator, 1.0 mw to 20.0 watts, type n male coaxial connector

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T134-a
