

View Online at <https://aerobasegroup.com/nsn/6625-01-096-4619>

Frequency Rating:

400.0 hertz

Output Impedance Rating:

5.0 ohms

Voltage Rating:

Between 1.1 volts and 111.1 volts

Special Features:

Phase shift range 0.0 to 399.999; phase shift controls-6 in-line decade switches; phase shift accuracy-10.05 degrees between ref and vector phase above 10vrms; output configuration-transformer couple (floating) ; inductive div linearity- 0.5ppm for settings 10v to 100vrms; sin wave; 0.1pct maximum thd output distortion; silicon solid state-elec construct; 115vac porm 10v, 60 hz line power; 15-3/4in total hgt, std 19 in rack panels; cabinet optional

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T320-j
