Voltage Calibrator - Page 1 of 1

Fiig: T263-b

View Online at https://aerobasegroup.com/nsn/6625-01-099-2414 **Overall Length:** 23.750 inches **Overall Height:** 8.750 inches **Overall Width:** 17.000 inches Ac Voltage Rating: Between 100.0 volts and 240.0 volts Frequency Rating: Between 50.0 hertz and 60.0 hertz **Instrument Calibration Range:** Dc volts-20.0 mv to 1100.0 v; ac volts-20.0 mv to 1100.0 v; dc current 200.0 ua to 2.0 a; ac current-200.0 ua to 2.0 a; resistance-1.0 ohm to 10.0 ohm; includes mini tape cassette **Calibration Range Quantity:** Phase: Single **Functional Classification:** Aa-10.1 **Special Features:** 5 functions: direct or alternating voltage or current plus resistance **Functional Description:** Calibrator for analog and digital multimeters to 4 1/2 digits **Reference Data And Literature:** Fluke 1991 catalog **Supplementary Features:** Mfg name: calibration instrument Shelf Life: N/a **Unit Of Measure: Demilitarization:** No
