Special Features:

C/o precision digital ohmmeter w/full scale range of 19.990 ohms and switch to select any one of four bridgewire circuits to be measured; 2 pulse evaluator circuits that provide a dummy load and has latching indicator lights; power supplies, 14vdc battery, 12v reference supply, 5vdc regulator, neg 3v power supply; battery charger circuit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-a
