End Application:

Joint surveillance system (jss se rocc)

Special Features:

Hermetically sealed, solid state, 0.270 in.Character height, high luminous intensity, low power rqmts, withstands severe environmental conditions, left hand decimal, wide viewing angle; operating free-air temperature range: m55 degrees c to p100 degrees c; storage temp range: -65.0/plus 125.0 degrees c;

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
