Supplementary Features:

Q2-18ghz; 35db min directivity; 0.5 watt; vswr input & detector ports 1.45, test port 1.30; measures return loss & vswr relative to a 50 Ohm reference impedance; connectors input port type n; detector & test ports 7mm

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-d
