End Application:

Radar tester, p/n 7837450-3 cage 98750

Unit Type:

Analyzer/pattern generator

Functional Description:

Provides hi speed pattern generatation and test capabilities

Supplementary Features:

Supports 1k or 2k memory i/o cards; incls interactive crt, keyboard, macro programming language, program memory; ieee 488, rs 232c and 16 bit parallel remote control interface

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-b
