**End Application:**

Fiber optic power meter, united detector technology model s550

**Measurement Range:**

-90.0/+3.0 decibels above or below one milliwatt single indicator single range

**Special Features:**

Black anodized housing; silicon sensor; spectral calibration: 400 to 1150 nm at 50nm intervals; linearity: porm 1 pct; factory set wavelength: 900 nm; reproducibility: porm 0.5 pct

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A310a0
