Electrical Connection Type:

Bnc

Specific Usage Design:

Elect. Test equipment

Electrical Connection Quantity:

2

Frequency Range:

+0.000/+25.000 megahertz f1 input ratio

Display Digit Quantity:

8

Solid State Feature:

Included

Special Features:

Front and rear panel connectors with simultaneous timer and counter operation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T297-a
