Overall Length:

15.000 inches

Overall Height:

13.000 inches

Overall Width:

13.000 inches

End Application:

F16a/b a/c test equipment

Special Features:

Rcarrying case; cables stored in cover; measures capacitance values of electrical circuit based on capacitance measurement and insulation resistance; capacitance measurement 0.2 percent; resistance measurement 1/8 in.Scale

Fsc Application Data:

Fqgs systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T228-d
