Special Features:

Frequency 10 to 100 megahertz; isolation 30.0 db between any two outputs; vwsr in a 50.0 ohm system 1.3 ; operating temperature minus 54.0 to plus 50.0 degrees celsius; four outputs; three grounds; solder terminal 0.040 in. Dia. Eight places; 1.320 in. Long 0/a; 1.080 in. Wide 0/a; 0.720 in. High 0/a; relative humidity up to 95 percent; tested for moisture resistance, shock, vibration, and salt spray

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A512n0
